

Millions of dollars will be made in real estate when the new union depot will have been built on Broad Street in the far West End. The R. F. & P. officials have put themselves on record recently before the City Council that the depot could be built either at the Hermitage golf grounds or the old baseball grounds.

Watch values of property beyond these points jump over 100 per cent within a day after the announcement of the exact location of this depot.

GRAND OPENING SALES DAY of lots in Richmond's newest and most beautiful suburb— "MONUMENT AVENUE PARK"

This property is just beyond the belt line, where many thousands of dollars have been spent in laying sidewalks, setting out shade trees, grading streets, etc. Select your lot in advance of the opening day, or you'll be like many disappointed souls who failed to obtain lots in Lee Annex several years ago.

RESTRICTIONS

No lots can ever be sold or rented in MONUMENT AVENUE PARK to any person of African descent. No liquor will be allowed to be sold on any part of the property. No use can be made of the lots or any part thereof that will create a nuisance or injure the value of adjoining lots. No house will be allowed to be built on Monument Avenue to cost less than \$6,000. No house on Grace Street to cost less than \$4,000. No house on any other part of the property to cost less than \$3,000. All houses must be built at least 25 feet from the sidewalk line.

COUPON

Fill out and mail to company's office. Representative will call and make engagement to take you on inspection tour of the property.

NAME.....

ADDRESS.....

The use of this coupon does not obligate you in any way.

CIRCUIT MAY BE GIVEN ANOTHER JUDGESHIP

Bill Introduced by Chilton Is Favorably Reported by Judiciary Committee.

[Special to The Times-Dispatch.] Washington, April 14.—The introduction of a bill in Congress a few days ago by Senator Chilton, of West Virginia, asking that the President be authorized to appoint an additional Federal judge for the Fourth Circuit, composed of the States of West Virginia, Virginia, North and South Carolina and Maryland, has complicated the situation with respect to the appointment of Judge Goff's successor. While up to the present time it has seemed absolutely certain that this vacancy would go to Justice Charles A. Woods, of South Carolina, it is now said that with a favorable report on the Chilton bill made by the Senate Judiciary Committee to-day, the appointment of Judge Goff's successor may be held up until it can be determined whether or not the bill will pass Congress. If it does, it is now claimed that the President may name Congressman Davis, of West Virginia, to the vacancy and

Judge Woods to the extra judgeship. The reason for this shift after the South Carolinian apparently had easy sailing is alleged to be because Congressman Davis, being a member of the present Congress, which would pass the bill providing for the additional judgeship, would not be eligible, but would be eligible for the vacancy, while, on the other hand, Justice Woods would be eligible for either place. This view of the situation caused much interest in the matter here to-day among persons from all the States included in the Fourth Circuit. It is almost certain now that many lawyers in Virginia will renew their efforts to have some one of the places that State secure one of the places. Up to a week ago the names of several well-known Virginia lawyers had been proposed to Attorney-General McKey, holds for consideration in connection with the vacancy, but when it seemed certain that Justice Woods would get the Goff place, they began to hold off. It is now expected that their efforts will be renewed. P. H. McG.

GOLD DUST cleans windows quickly

With a dry, soft cloth remove dust from both sides, cleaning the corners and grooves with the point of a stick covered with a cloth.

Have ready a pail of warm suds made by dissolving a tablespoon of Gold Dust washing powder in warm water. Dip a soft cloth in the water, squeeze almost dry and wipe the glass off. Polish with chamois, as it leaves no lint. Do not wash windows when the sun is shining on them.

Mirrors should be washed in the same way as windows. Then polish with a soft cloth charged with powdered whiting.

You can buy a large package of Gold Dust for 5 cents.

"Let the GOLD DUST TWINS do your work"

SULZER SIGNS HOTEL BILL.

Discrimination as to Guests Forbidden. Amends Civil Rights Law. Albany, N. Y., April 14.—Governor Sulzer has signed a bill which amends the civil rights law. He said that the bill was one of the most important of the session. It provides that no hotel keeper shall display, post or circulate any notice to the effect that any person on account of race or color is unwelcome as a guest. The provisions of the new law are general. They affect the owners, proprietors or managers of any place of public accommodation. The places included are hotels, conducted for transient guests or for those seeking health or rest; restaurants, eating houses, public conveyances on land or water, bathhouses, barber shops, theatres or music halls.

The production of any public notice announcing that accommodations will be refused or guests made unwelcome on account of race, creed or color is made presumptive evidence in any civil or criminal action that the notice was authorized.

Violations of the law subject the offender to a fine of from \$100 to \$500, to be recovered by the person aggrieved or to a person to whom the cause of action has been assigned. A violation is also made a misdemeanor, punishable by a fine of from \$100 to \$500 or by imprisonment from thirty to ninety days, or both.

ACTS ON COFFEE ISSUE.

Brazil's Notice on Rates to Exporters Viewed as Retaliation. Washington, April 14.—The controversy between the United States and Brazil in regard to the valorization of coffee has been brought to an issue by a notice served on this government by Brazil that the preferential tariff rates of last year on American flour, cement and other articles had been continued up to April 8. This means that American exporters of these commodities may have the satisfaction of knowing that their shipments up to a recent date had the benefit of the preferential rate, which was 30 per cent on flour and 20 per cent on cement and other articles, but that as to shipments ar-

iving after April 9 they will not be able to tell if they have been sold on a safe margin or not until this government is advised as to whether the preferential rates are to be further continued or abandoned. This government has taken steps to learn if the rates are to be maintained for the rest of 1913.

The action taken by the Brazilian government looks to officials here as if an attempt had been made to trap American exporters in retaliation for the action of the United States in proceeding against the State of Sao Paulo and the coffee combination to break up the monopoly maintained by the valorization of Brazil's coffee crop shipped to this country.

The government, proceeding under the interstate commerce act, has made it impossible for the coffee combination to move its consignment from the City of New York and into commerce between the States, although the combination's London agent has reported the crop and practically sold it to jobbers in thirty-two American cities.

Clears Skin of Worst Eruptions

Remarkable Action of a Remedy That Drives Every Speck of Poison From Body.

There is a strange, mysterious power in a remarkable blood medicine that finds its way through the circulation by what is known as Divine selection. The remedy is Swift's Sure Specific, or S. S. S. Science cannot explain just why certain elements in the blood feed the bones, others nourish the hair roots, and so on. And it is this same mysterious action of S. S. S. that attacks all diseased spots, drives away all germs, heals all sores and supplants the activity of disease germs with the powerful healing action of leucocytes. Remarkable testimonials have been written that prove beyond question there is no blood disease but what can be cured by S. S. S. And in all those cases that were treated with mercury, iodides, arsenic, copper and other minerals with no permanent effect, the most astonishing recoveries have been made by S. S. S.

There is not a taint of any nature that can remain in a system freed by this most wonderful remedy, for it is absolutely pure and contains only those elements that the blood naturally assimilates, and which the tissues gratefully accept. It agrees with the most delicate stomach, even in those cases where the use of strong drugs has so weakened the digestive system that medicine cannot be given. Get a \$1.00 bottle of S. S. S. at any drug store and thus be assured of a complete cure of any eruptive blood disease. If your case is peculiar and you desire special advice write to The Swift Specific Co., Medical Dept., 127 Swift Bldg., Atlanta, Ga.

ANGELS IN ART AT ACADEMY TO-NIGHT

Wonderful Production to Be Presented for Sheltering Arms Hospital.

All is in readiness for the big production of "Angels in Art," the first performance of which takes place at the Academy of Music this evening. The stage has been set with fascinating cloud and blue sky effects, and there are all sorts of harps and trumpets and wonderfully colored costumes for "stage properties" and a bevy of beautiful girls and women, with any number of dear little children, who will pose in these tableaux that will present the history of the world from the dawn of time to the present day. The production is the work of the Sheltering Arms Hospital, and the good people interested in its production here are looking for splendid results with which to care for poor little sick babies and the homeless, wretched sick who have no place to go to be looked after properly. The Sheltering Arms Hospital is doing a great and good work, far-reaching and noble in its efforts to aid suffering humanity which cannot help itself, and it is calling upon the people of Richmond to do their part in this small way.

The dress rehearsal last evening went forward with a vim from beginning to end, from the beautiful music of many choirs and the prologue, spoken by Miss Charlie Minor, to the very last picture, in which some fifteen angels are posed against a background splendidly executed by soft-toned draperies and most artistic lights and shadows. It is to be a vision of beauty; the most wonderful thing of its kind ever given in Richmond, and Richmond people will be there in full force to see this unique triumph of art in music and lovely angels, who are no less persons than the beautiful women and children of this city.

SUIT BARES OLD ROMANCE. Edward McCall's Marriage in South America Revealed in Court. Philadelphia, April 14.—A South American romance, with Edward McCall, who was a member of one of Philadelphia's oldest families, and Mabelina Molina Tristram, widow of a famous rebel general of Lima, Peru, as the principals, was disclosed in the Orphans' Court Saturday. The disclosure resulted from proceedings involving the ownership of part of a fund of \$908,291 recently awarded by the United States government to the McCall estate, following grants in Chile.

Edward McCall married Mme. Tristram in Peru in 1850, when he was sixty years old. On February 4, 1873, she died while worshipping in a church in Lima, and Mr. McCall died a year afterward. Mr. McCall's financial interests were in an American firm known as Alsop & Co.

Following the war between Chile and Bolivia in 1883, land grants belonging to the firm were seized by Chile. Claiming their right to the property American members of the company took the matter up with the United States government in 1893. The case was allowed to go along until December 1, 1909, when the governments of this country and Chile signed a protocol referring the matter to King Edward, of England, to determine the claim. Upon King Edward's death, King George took up the work and determined that the amount due the firm was \$908,291.

On August 11, 1911, the government placed this sum in the Treasury of the United States to await distribution. Subsequently, George McCall, as executor of the estate of Anne McCall, the latter a niece of Edward McCall, appeared and claimed to be the legal representative of Edward McCall, being at the time of the death of Anne McCall, the only American having an interest in the estate. Accordingly the share of the fund due the estate of Edward McCall, amounting to \$71,954.47, was paid over to George McCall. This has caused a contest by the heirs of Mme. Tristram.

Of course, everybody is going to be there, and of course, everybody knows the history of Mrs. Woods' bringing these beautiful pictures to this country, and the Academy of Music will be thronged with a brilliant company of representative people for each of the two performances. Much has been accomplished and achieved by these pictures presented in other cities for a local charity under Mrs. Woods' direction, and the good people interested in its production here are looking for splendid results with which to care for poor little sick babies and the homeless, wretched sick who have no place to go to be looked after properly. The Sheltering Arms Hospital is doing a great and good work, far-reaching and noble in its efforts to aid suffering humanity which cannot help itself, and it is calling upon the people of Richmond to do their part in this small way.

Will of King George of Greece Urges Patriotism Upon His Children. Athens, April 14.—In his political will, which has just been published, the late King George, after giving directions for the disposition of his belongings, urges his children to remain united. Addressing himself to the new King, Constantine, King George says: "Love your dear little country. Serve her and your dear people, and have

confidence with them, and may your brothers follow the same example." The will urges King Constantine to be courageous, but patient, "for you are reigning over a Southern people, whose temper and irritability take fire rapidly, and who, at any moment, may say and do things which it is probable will be forgotten the following day. It is preferable that the King should suffer, rather than his people, and his country. The interests of the people of the country must always be placed before all other interests."

In conclusion, King George declares his love for Queen Olga, and urges his son to love and protect her.

PECULIAR FISH SEEN Looks Like Submarine and Has Pin For Counting Tower. [Special to The Times-Dispatch.] New York, April 14.—The officers of the Caledonia, which arrived here yesterday from Glasgow, reported having seen an unusual fish on Tuesday evening last, when the ship was about 200 miles due east of Cape Race. At 1 o'clock in the evening the fourth and second junior officers were on the bridge, when they suddenly sighted what they took to be a derelict.

As they came closer alongside, they saw that it was a fish between thirty and forty feet long with a large triangular fin sticking up out of the water. It was moving through the water at a speed of about twenty knots an hour, and passed the ship quite close. The officers said that it looked very much like a submarine boat, the peculiar fin appearing like the conning tower.

ATTEMPTS TO "FRAME" HIM Serious Charge Against Suffragettes in Sylvester Case. [Special to The Times-Dispatch.] Washington, April 14.—Charges that the suffragists tried to "frame" Major Richard Sylvester, superintendent of the capital police, before the Senate committee investigating the alleged disorder during the suffragist parade here on March 3, and that they plotted to have him removed from office by this means, were made by Miss May Stevens, a woman who worked in the local suffrage headquarters just preceding the inauguration demonstration.

Miss Stevens, who hails from Missouri and Texas, is quoted as saying that witnesses were coerced by the suffragettes before going on the stand before the committee, and that in many cases their evidence was considered bolstered up by such means. Local suffragettes indignantly denied that the charges were true. The matter probably will be brought to the attention of the investigation committee which resumes its session here this week.

STILLS DESTROYED AND FIVE MEN TAKEN

Four "Moonshine" Plants Fall Under Axes of Revenue Officers.

[Special to The Times-Dispatch.] Roanoke, Va., April 14.—Muddy from head to feet, worn from four days of raiding, which ended in an all-night ride Saturday night, Deputy Collector of Internal Revenue J. P. Hurt and Special Employee J. C. Pritchard, Jr., returned to Roanoke at noon yesterday, having added the destruction of four illicit stills and the capture of five men to their credit, with the aid of deputy marshals and possmen in Patrick and Franklin Counties.

Deputy Hurt recently relieved Deputy T. D. Shelton in this territory, the latter having been transferred to the Asheville, N. C., district. In company with Mr. Pritchard, J. W. Staples, deputy marshal, and two possmen, Mr. Hurt left Stuart, Patrick County, Wednesday morning, making a quick trip to the vicinity of Charity. There the officers seized and destroyed a ninety-gallon plant, including copper still, which showed signs of having been operated recently. A small quantity of beer was spilled. The plant was about worked out when the officers arrived on the scene.

The raiders spent the night in the neighborhood of Hartsville, and Thursday morning returned to the vicinity visited Wednesday, where two plants were discovered and destroyed. At one of these the equipment was taken, the other being a dry plant. About 1,500 gallons of beer was spilled at the two stills. Both plants showed signs of recent operation.

Thursday night was spent in the region around Endicott, Franklin County. Friday morning heavy rains set in, and the officers were compelled to abandon their campaign and return to Stuart, where they remained Friday night. Saturday morning Deputy Hurt and Mr. Pritchard went to Rocky Mount and spent the day. At night the two officers were joined by Deputy Marshal W. E. Woody and one possmen, and set out for Endicott again.

About 4:30 Sunday morning they came upon a large plant, with three burning and one man looking after operations. This watchman was taken into custody and held, while the officers secreted themselves in the bush nearby to await developments. About 6:30 o'clock four men appeared on the scene with the evident intention of beginning work for the day, but before they had an opportunity to investigate the whereabouts of their captured companion, the officers came from their hiding places, and the late arrivals were taken in tow. The plant then was destroyed, equipment, including a 100-gallon copper still, falling under the axes of the revenue men, besides 3,000 gallons of beer being spilled. The posse returned to Rocky Mount, and Deputy Hurt, with Special Employee Pritchard, came to Roanoke at noon Sunday.

Dog Crusade Is On. [Special to The Times-Dispatch.] Alexandria, Va., April 14.—Seventeen citizens, men and women, white and black, were cited to appear in the Police Court to-day for failing to have their dogs muzzled. Seven out of the number summoned were fined \$5 each. This is the beginning of a crusade inaugurated against unmuzzled dogs by the police.

Have Better Rest at Night, Do Better Work by Day—Drink

White Rock Water

Alfred L. Loomis, M. D., L. L. D., the famous Professor of Pathology, says "Mineral Waters should be freely drunk at all times. Especially by those carbonated Lithia Waters whose properties are alkaline are always of service."

Colds, Weak Lungs, Weak Throats. Ayer's Cherry Pectoral Sold for 70 years. Ask Your Doctor. J. C. Ayer & Co., Lowell, Mass.
